Elevate Uranium Secures \$10M to Accelerate Its Growth Strategy

KEY HIGHLIGHTS

- ❖ Elevate Uranium receives binding commitments to raise \$10.0 million (before costs) through a Placement at \$0.42 per share
- ❖ The Placement received strong support from domestic and offshore institutional investors including specialist uranium and natural resources funds
- ❖ Upon completion of the Placement, Elevate Uranium will have a strong balance sheet with a cash balance of c.\$17.1 million (before costs)¹
- ❖ The placement positions Elevate Uranium to deliver an accelerated growth strategy across its Namibian and Australian uranium portfolio, including resource definition and expansion drilling, high impact regional exploration programs and commencement of technical studies
- ❖ Strong near-term news flow expected with three drill rigs currently active at Koppies supporting the anticipated delivery of a resource update in Q1-CY24, whilst planning is underway for further resource growth and exploration drilling across the Australian and Namibian portfolio

Elevate Uranium Ltd (ASX: EL8) (“Elevate Uranium” or “the Company”) is pleased to announce that it has received binding commitments for a single tranche placement of shares to raise \$10.0 million (before costs) at \$0.42 per share, utilising its placement capacity under ASX Listing Rule 7.1A (“Placement”). Participants will also receive one (1) free attaching unlisted option for every two (2) shares subscribed for in the Placement. The Options will have an exercise price of \$0.60 each and a two-year expiry date (expected to be on or around 30 January 2026). The Placement introduced a number of new, high quality institutional, sophisticated and professional investors to the share register, whilst also being well supported by existing significant shareholders of the Company.

Elevate Uranium Managing Director, Murray Hill, commented:

“Demand for the \$10M Placement was strong and it was great to see such a tangible endorsement of our strategy. The placement adds further depth to our register, strengthens our financial position and allows us to press on to aggressively advance our flagship Koppies project in Namibia and explore our other projects in Namibia and Australia. In an increasingly buoyant uranium price environment, we will have five drill rigs operating in Namibia alone.”

¹ Elevate’s cash reserves as at 6 December 2023 were \$7.1 million

USE OF FUNDS

In addition to the Company's existing cash reserves (\$7.1M¹), the Placement positions Elevate Uranium to fund:

- ❖ Resource in-fill and expansion drilling, metallurgical test work and commencement of a scoping study at the flagship Koppies Project located in Namibia:
 - Three drill rigs currently operational.
 - Metallurgical test work at Koppies will provide the foundation for an **U-pgrade™** pilot plant.
- ❖ Additional drilling to support resource growth on other projects including greenfield targets across the Company's Namibian exploration portfolio:
 - Two additional drill rigs to be commissioned to execute high impact drilling programs, increasing the total number of drill rigs operational on the Namibian portfolio to five.
- ❖ Resource drilling and additional exploration at the Company's Australian uranium exploration projects including high impact drilling programs at Angela and Minerva both located in the Northern Territory.
- ❖ Potential opportunistic acquisitions.
- ❖ Corporate costs and general working capital requirements.

The Placement Shares will rank equally in all respects with existing Elevate Uranium fully paid ordinary shares. Following issue of the Placement Shares the Company expects to issue 23,809,524 new shares, increasing the total shares on issue to 308,446,580.
